SUBJECT: Retrospective Approvals and Authorizations

REFERENCE: [Redacted] Dated 10 April 1953, "Clandestine Services Travel Procedures"

1. The reference notice carried an amendment to travel procedures issued 20 February 1953. Your attention is directed to Paragraph 3. b (2) (b). "Retrospective approval of travel performed at personal expense will be granted only when it can be demonstrated that an unanticipated situation of extreme urgency prevented the obtaining of prior authorization." Your attention is also directed to Paragraph 3. e (1) (c) having to do with temporary duty travel in which the last sentence states "This emergency authorization will be the personal responsibility of the Area Division Chief."

2. Retrospective authorization of travel is rarely justified. As in the exercise of most special authority, it is usually a reflection of bad planning and poor staff work. With the increasing emphasis being placed by the Director upon the proper and adequate expenditure and control of unvouchered funds, it is even more important that everyone avoid the need for resorting to such irregular practices.

3. Although the reference notice is addressed only to the problem of travel, the same issue is involved in retroactive approval of salary commitments to agents, delayed accountings for advances, and commitments or expenditures by persons not authorized to make such commitments or expenditures. The Administrative Staff of SR Division is prepared and willing to give every assistance and expeditious treatment to any travel or financial problem of the operating branches. In most instances a prompt call upon this Staff for assistance will obviate the need for later laborious or detailed explanation or justification.

SR DIVISION NOTICE

25X1A

[REDACTED]

SUBJECT: Approval and Funding of Fiscal Year 1954 Operations

1. DD/P, Administration, is formulating a single Clandestine Services procedure for submission, review, and approval of PI, [REDACTED] projects. The Comptroller, CIA, is undertaking to standardize allotment procedures for all Clandestine Services projects, and one feature of this standardization will be the placement of all PI projects on a fiscal rather than calendar year basis, as is now the case with [REDACTED] projects. This move will be made to conform with law and Bureau of the Budget regulations. In the near future we can expect a single project procedure to emerge which will be in line with the new operational programming procedure.

25X1A

2. Pending advent of the new procedure, the following will govern approval and funding of SR operations for fiscal year 1954:

25X1A

a) A consolidation of SR operational program will be submitted shortly to the Senior Staff and the DD/P Board for consideration. This program would specify all PI, [REDACTED] requirements and request approval and funds to carry out these operations during the year. The program will be considered by the DD/P Review Board and submitted to DCI for approval sometime in June.

25X1A

b) Approval of the program will constitute automatic renewal of all continuing [REDACTED] projects and [REDACTED] and [REDACTED] portions of joint projects. First quarter allotments of fiscal year 1954 funds to these projects will then be contingent only upon Congressional action on CIA's fiscal year 1954 budget.

25X1A

25X1A

c) PI projects will be resubmitted individually for PI staff review before final approval and funding. SR will submit [REDACTED] project outlines during fiscal year 1954 only to begin new projects, to change the fundamental objectives of continuing projects, or to obtain release of funds included in the program on a contingency basis.

Security Information

a) If the program is not approved by the DCI before 1 July and Congress has appropriated fiscal year 1954 funds to CIA, the Comptroller will make first quarter allotments to continuing [redacted] projects on the basis of fiscal year 1954 program requests and current project needs. No continuing project will be suspended for lack of funds while its renewal is pending.

SR DIVISION NOTICE

25X1A

SUBJECT: Supervision of Projects and Accountability

1. Reference is made to the memorandum dated 15 April 1953 from the Director to the Deputy Director (Plans) on the subject: "Supervision of Projects and Accountability." A copy of the subject memorandum was circulated through SR Division during the first week in May and called attention to the fact that responsibility for approval of expenditures should not stop with the Director's signature on a PRC recommendation and also that the responsibility did not reside with the individual case officer.
2. The signature of an approving officer on a voucher is presumed to be evidence of his determination that the action involved is legal and proper. Many such vouchers are by their very nature either self-supporting or supported by documentation in the form of ticket stubs, receipts, and so forth, or by existing contracts providing for a fixed pattern of payments. There are, however, a large number of such vouchers which are totally unsupported by anything more than the signature of a case officer. These include such things as cash payments for purchase of confidential information, reimbursement for travel of agent personnel unsupported by travel orders or contract stipulations, entertainment of agents or prospective agents, and so forth.
3. In order that I may properly discharge my responsibility in approving such documents, it is requested that henceforth all such vouchers submitted by case officers be concurred in by the branch or staff chief concerned. Such concurrence shall be evidenced by a statement over the signature of the branch or staff chief to the effect that the action was necessary and appropriate to the operation concerned and that documentary support is one file in the branch or staff concerned. This will be notification to the approving officer that the determination has been made that the meeting, entertainment, information purchase, or whatever, was a proper operational incident and was done at the direction of or with the subsequent approval of the branch or staff chief. In the absence of such determination, it would reasonably be incumbent upon the approving officer to determine that the action was a proper one. Such an intrusion of administration into operational questions would violate the fundamental relationship which has long existed between operations and administration. I am sure that such an intrusion would be unacceptable to the operator concerned and certainly it is not desired by me.

SR DIVISION NOTICE

25X1A

SUBJECT: Allotment Procedure

1. The Budget Division of CIA has changed its procedure for allotment of funds for this current fiscal year. Funds for SR Division have been allotted directly to Chief, SR. Under [redacted] Chief, SR is personally responsible for preventing over-obligation. The Chief, Budget & Finance Section is directly responsible for allotment control as the agent for C/SR.

2. Effective immediately, the following internal procedure shall be followed for allotment control of new and renewing projects:

a. After preparation by case officer and prior to release by Branch chief, each project will be submitted to Chief, SR Administrative Staff, Room 2516 J, for budgetary analysis and logistical coordination. Projects which do not show clearance by C/SR/Admin will not be passed by C/SR.

b. After project approval by final authority (C/PI, DD/P, PRC, or DCI as appropriate), SR Budget & Finance Section will issue allotments every three months to headquarters and the field in accord with [redacted]

3. The Budget & Finance Section also will issue quarterly allotments to Headquarters and Field for (1) [redacted] Projects which receive their authority through the USSR country operational Program for FY 1954 and (2) PI Projects operating under a previously granted authority.

4. In case of increased need for operational funds, the case officer will obtain a project amendment for greater authorization. Increased allotments will then be made within project approval and available funds.

5. Under this new procedure, Chief, SR officially is responsible for reporting of all obligations. Case officers will notify the Budget & Finance Section of all commitments of funds which are not supported by documentation, and will route all financial documents to the Budget and Finance Section.

6. The C/SR/Admin shall be provided with copies of all projects, current and planned. Sterile copies are acceptable for [redacted] projects.
